Ordering made easier

What’s new on Divoox for customers

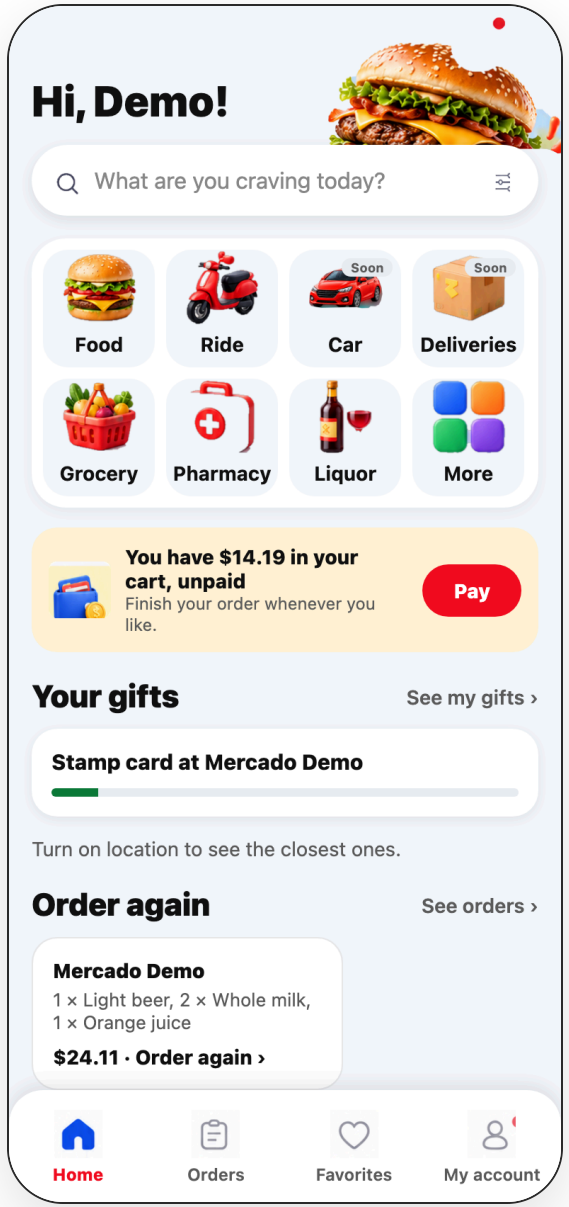

Schedule your order

- Pick the day and the half hour you want it, up to 6 days ahead.
- Same price and same delivery fee as ordering now.
- The restaurant prepares it in time to arrive within your window.

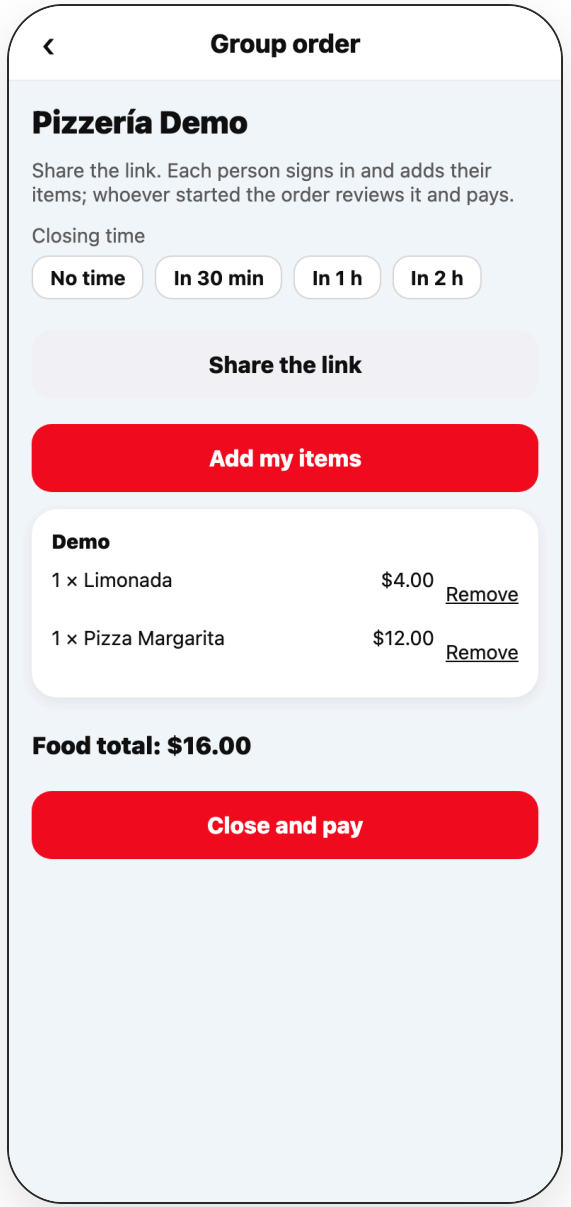

Order again

- Your last order, back in your cart with one tap at today’s prices.
- If something is no longer available, we tell you and add the rest.
- Below, “You might like”: new restaurants of the kind of food you already ordered.

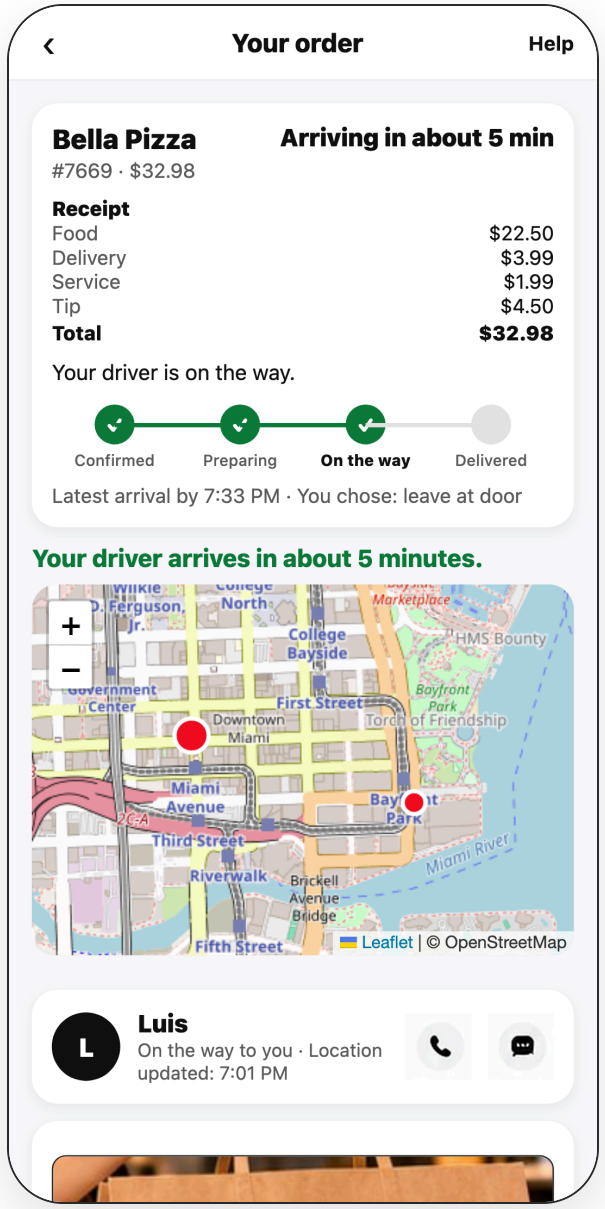

Group order

- For the office, family or friends: share one link.
- Each person adds their items, under their name.
- Set a closing time if you want; at the end you pay for everything together.

Track your order and share it

- Follow your order live, from the restaurant to your door.
- “Share tracking” sends a link to anyone you want.
- They see the status and the driver on the way, never your address or what you paid.
